**Attachments:** WestLake\_GIS\_Data.piz

→ attachment is not printable.

Dan,

Attached is a zip file containing 2 "map packages." After downloading, just rename the file extension from "piz" to "zip" and extract using WinZip. You should then be able to open the "map package" files with ArcGIS.

Please let us know if you need anything further or have any questions.

Thank you,  
Nick

**Subject:** West Lake: need the GIS files you created for the public meeting figures

Nick, Colin, would you send me the GIS files, basemaps, KMZ files, Google Earth coverages, etc that TetraTech developed to create the West Lake public meeting PDF figures for January and June of this year?

Thanks,  
Daniel R. Gravatt, PG
